Amer Aizat

ameraizat98@gmail.com / 0163166465 / MASJID TANAH, MELAKA

Summary

My last job at MATC Technologies got cut short because of a company financial problem so I am looking for a new opportunity. I am a very hardworking person, willing to learn anything and have a self-taught attitude.

In the past 6 months, I have been self-taught myself how to be a Frontend Developer. I mainly use React to develop a web application but I am willing to learn any framework or library

This is my Github:https://github.com/mejat9806   This my Portfolio : https://amerportfolio.vercel.app
